SHUDDERS AT HIS PAST.
"I recall now with horror," says Mail Carrier Burnett Mann, of Levanos, O., "my three years of suffering from Kidney trouble. I was hardly ever free from dull aches or aches pains in my back. To stoop or lift mail sacks made me groan. I felt tired, worn out, about ready to give up when I began to use Electric Bitters, but six bottles completely cured me and made me feel like a new man. They're unrivaled to regulate stomach, Liver, Kidneys and Bowels. Perfect satisfaction guaranteed."

DISAPPOINTMENT CAME.

One of the shrewdest observers of the seventeenth century said: "The longer I live the more I see that we are never so near a reverse of fortune as when she is favorable or so near receiving favors as when she is maltreating us."

Disappointments come without invitation. It is not a strange occurrence, when it is learned that our own, or the hopes of our friends, have been dashed against the stones of adversity. Wrecks covered with broken hopes are strewn along the pathway of life, in places too often where they were least expected to overtake us.

When a cherished project is near accomplishment after a manner to our liking, it is humiliating and often exasperating to learn that it made a right angle when it should have entered our net. Fond anticipations are shattered, when there is nothing but assurance of success, garlanded in sunbeams, reflected from roses of the brightest and most inviting colors. There is gladness in the mind, which fills the avenues of life for the present, which is intensified by anticipation respecting the future which flatters the imagination while it is engaged in outlining results of an achievement regarded as worthy of the best efforts of our intellect, not to mention the best efforts of our cunning.

When will it be that the best laid plans of "men and mice" will cease to deceive us? Is there not a future to which the human mind may anchor, its hopes in confidence when plans have been made and laid down and broad to make a sure thing that we will not be jilted at the threshold of what should be a successful issue?

Disappointment is a good to the mind and very often to an offended conscience, which has its stings to torture both body and mind when no physical enemy is present. The stillness of night clothed in darkness is the time when it does its most effective work to make us feel its bitter pain. The person who talks about becoming a philosopher when we are so mad that it would be a relief to bite a ten penny nail, is among the fools who should have a strait jacket put upon his tongue as it is impossible to become a philosopher when a person is too hot in his collar to think. He can only rave in such times, which brings relief when consoling circumstances and things beyond the man are not in existence.

Whoever has received great disappointment by having his well matured plans broken into and set aside is entitled to receive the sympathy of the humane, when undergoing punishment for being too sure that he had a deal thing.

These thoughts came unbidden into the mind of the writer in connection with late discoveries made in Reno school matters, which have been the means of causing some trouble to Reno philosophers who had concluded to make a change in Reno school management. It was the intention of the Journal to pass the matter without comment, but it is informed that there is pleasure taken in the pursuit of a trustee, who upon a review of the whole situation as an honest citizen and school officer, concluded it was best that the business in the schools then before the Board of Trustees should remain as it had been and is, which was a right connected with his office, nay more, it was a duty connected with a right to so determine if his judgment was convinced that it was for the best interests of the schools and the good of the community that school arrangement and authority should remain as it is.

The Journal is informed that an effort was made to remove Mr. Fletcher, school trustee, from his position in the Nevada Bank because he had exercised a right and duty he was invested with when he took office, which, he is said to be the credit of a majority

of the Board of Directors of the bank, was not accomplished.

It appears to be known to a majority of the directors that there are schemes connected with politics and the management of public domestic affairs in the community in which persons connected with the bank concern themselves too much for the good of the bank.

There is not any doubt that a like opinion is entertained by many of the business men in the community, who not only identify in their minds these persons with politics, but they also identify the bank with the political schemes of these persons to the injury of its business.

It may be said that the Journal is using plain speech about the bank and its business, but the time is long overdue when like speech should have been used by those interested in it. A director of the bank said to the writer at an early hour yesterday morning that the stock of the bank would advance an additional ten percent through its action taken the previous evening.

The known business ability of a large majority of the bank directors has furnished a problem to the business community through permitting action in politics and other matters, by persons identified with its business, to compromise the bank in its business. There has been a movement made in the right direction, which will result in giving confidence to its patrons by removing its seeming identity with politics, which should place it where it belongs among honored institutions.

CARSON'S CARNIVAL

Big Preparations Being Made to Hold a Rousing Celebration.

The committee on masquerade and Mardi Gras held a meeting last evening and arranged many of the details for this portion of the coming Carnival, says the Appeal.

The Mardi Gras will open the last day, Saturday, shortly after noon, at which time Rex and his retinue of horrors will enter or rather invade the city. The inhabitants if they expect must receive his Royal Highness with due and proper demonstration. Rex will take his way in triumph to the throne of the Queen of the Carnival whose reign will be over, and from her will receive the surrender of the keys of the City. The Carnival Queen will remain a prisoner, however, and be treated with all the consideration due her rank during the day and evening. Early in the afternoon Rex will gladden the hearts of the people of the city by a triumphal march through its streets, at which time homage must be paid him.

DON'T FAIL TO BE PRESENT

The tickets for the Reno Wheelmen stag entertainment and smoker will be on sale Monday, and everyone should secure one and help the racing boys to get new suits, which they are much in need of.

The entertainment will be one of the best of its kind ever given by the club, and will consist of vocal and instrumental music, boxing bouts and athletic work. Smoking material will be furnished, and those present will be given two or three hours of good clean sport. If your business is such that you cannot attend, buy a ticket and send someone to represent you.

DRANK WITH THE "BOSS."

When any celebrating of any kind is going on, in which our worthy postmaster is interested, he never overlooks the postoffice employees. "Nashby" had a birthday Thursday and Friday evening the office boys found several bottles of sparkling champagne in the ice chest, marked "The compliments of the 'old man' to the postoffice employees." It is needless to say the boys drank to the health of the P. M., and wished him many happy years.

WHAT THEY SAID

Says John Wedekind—I would like to know the name of the fiend incarnate who sent my name to a matrimonial bureau. No fate is too hard for the consummate rascal. For the past month I have been deluged with letters from ladies of all ages, sizes and conditions. I have suspicions as to who is the guilty man, but the suspect denies the allegation and I have no proof. The thing is absurd. Who ever heard of my making "goo goo" eyes, anyhow?

Says Henry Riter—It would be a great convenience to everyone interested in mining if the University would make analyses of ores for prospectors. At present anyone wishing an analysis made must send his sample to Denver or Frisco, thus entailing unnecessary delay. Several of us have taken the matter in hand and as the University is a State institution, supported by State funds, we hope to be able to induce the University authorities to re-

gard our proposition favorably. We do not ask that assays for gold and silver be made, as this would work a hardship to local assayers.

Says Doc Redman—Quite a number of Colorado mining men are in town and all have been brought here by reports of Reno's possibilities as a mining center. Tomorrow I am going out into the hills with one of them to show him something of what the prospectors have been developing.

Says John Hunter of San Francisco—I went out to the race track today to see your boys training for the next relay race. They are a fine lot and I do not wonder that they are winners. That long chap, Keddie, is a wonder and so are several of the short ones. Trainer Ryan says the team will soon be picked out. This will certainly be a hard task; I mean it will be hard to tell which of the boys are best. To me they all seem fit to ride for a world's championship.

TOP BERTH TOURISTS

Two Travelers Enjoy a Breezy Ride on the Limited.

Two hobos perched upon the ridge pole of the dining car on yesterday morning's flyer drew a number of spectators to the edge of the sidewalk. They were both reclining and as comfortable as though ensconced in a spring bed of the latest pattern. One was colored and had on the uniform of the United States navy.

Just before the train pulled out a small boy got out into the middle of the street and commenced yelling at them. After enduring this for a few moments the ebony hued hero of presumably many thrilling naval battles scratched his nose, lifted his head and gave that kid the blackest look that a pair of black eyes, set in a black background could possibly muster for the occasion, but it was simply met with another jeer.

Greatly to the relief of the occupants of the top berth, at this moment the whistle blew, the bell sent its warning clang and the train moved.

When last seen at a point just below the water tank they still retained their reclining positions with an even chance of getting to Wadsworth with the dining car.

GARDEN CITY VERSUS RENO

Jate for the Relay Race With the Speedy Prune Eaters.

Arrangements are progressing very satisfactory for the 50-mile relay race between the Reno Wheelmen and the swift riders of the Garden City Wheelmen of San Jose.

This race was to have taken place in Reno on June 30th, but owing to the poor condition of the new racin course, it was deemed advisable to postpone that event until such time as would insure the perfect condition of the Reno riders.

The Secretary of the Racing Board last evening received the following letter, which explains itself.

SAN JOSE, June 6, 1901.

Yours of the 4th to hand and in reply will say that we will be ready to ride your team on the 14th of July. The race with San Mateo we are not to ride until the end of August, so you see we will be ready to ride your team on the above date.

Wishing you good luck against Sacramento, I remain yours truly,

J. W. DERMODY, Captain.

VERY FUNNY CHARIVARI

A young lady arrived from the east day or two ago and was met at the day by P. Gans, the bicycle man. After they took a brief excursion to a neighboring town and, upon their return, went to housekeeping at Sixth and Railroad streets. The natural inference was that it was a case of bride and groom. The gang got together and gave them a good old-fashioned charivari.

The truth of the matter is that Mr. and Mrs. Gans have been married for a car or more and the latter simply played her coming to Reno until their home was ready for occupancy. The boys had their fun Friday night, but Gans enjoyed the laugh yesterday.

TWO CLAIMS BONDED.

Charles Norcross and Washington specialists have bonded two claims in the Pyramid district. They form what is known as the Norton mine. It was owned by F. O. Norton. PUPILS WHO HAVE MERITED HONOR.

Monthly Report of the Public Schools of This City.

To the Honorable Board of School Trustees—Gentlemen.—I have the honor to submit herewith my report for the school month of May.

The year's work is now well in hand and the final reviews are in progress, preliminary to the closing examinations.

The present senior class, while not large in the number that will complete the entire course, is an excellent body of young people, who have acquired studious habits and built up good characters. They have good ability and are earnest workers, thus possessing the essential factors for success in any undertaking.

They have done extra work in some directions, as seniors, and will be able to give a good account of themselves.

The attendance, above the kindergarten, for May was 673, and there were 56 enrolled in the kindergarten. This is somewhat in excess of the attendance one year ago and indicates fewer removals at this time of year than town than heretofore.

We beg to remind every rider in Reno and vicinity that we were the first to introduce the cushion frame bicycle. Run Between the Bearings

On other bicycles the chain and sprockets run on the side of both bearings. On the Racylee you have no side wear on the chain sprockets or bearings, as the bearings are in the hubs or center of the cranks. On other bicycles you have considerable side leverage on the chain sprocket and bearings.

One thousand dollars will be given to any one who can prove that the Racylee crank hanger has not from 50 to 30 per cent less pressure on the bearings than any other bicycle manufacturer, leaving out intangibles. A full line of blue shoes, hose, sweat-ers and bolts. Repairing by mechanics.
